

# Our Classes

Kindhood constantly brainstorms new ways to inspire children through learning! We offer classes & camps in music, art, and cooking, as well as our signature Immersive Play Class, all of which encourages individuality!

## Create & Dream

For children to foster creativity, imagination, and problem-solving skills through hands-on activities and imaginative play. This type of class combines crafting or making projects with role-playing to create a multidimensional learning experience!

## Cooking

We don't just whip up tasty recipes! Your little ones will also learn new counting skills while stimulating their senses through taste, smell, and sight. Just throw in a few songs, and the bonus is taking a yummy dish you have cooked back home to share with your family!

## Art

Fostering the next DaVinci or Picasso!

Our art classes are awesome because we give kids the freedom to be super messy! (Parent's don't need to clean up afterwards!) We splat paint, sprinkle glitter, and incorporate recycled materials into our masterpieces, drawing inspiration from the greatest artists of our time.

## The Groove Factory

Music is a great vehicle that encourages little ones learn to move their bodies, find rhythm, build confidence and develop their motor skills! We love and embrace all types of music!
